Streets and Infrastructure Committee

Upgrading Residential Street Lighting along N Glenwood Ave

Project description: Installation of upgraded residential street lighting (with piggybacks) on Glenwood Ave from W Albion Ave to W Pratt Blvd to improve visibility and public safety.

Proposed Location Map:

Estimated Project Cost (according to the Chicago Department of Transportation):
\$325,200

Streets and Infrastructure Committee

Street Resurfacing and Alley Resurfacing across the Ward

Project description: Repairs to fundamental infrastructure (streets, alleys, curbs, and sidewalks) to improve the mobility of residents and visitors alike. The final selection of repairs will be based on requests from the community, the Committee's survey, and the final recommendations from the Chicago Department of Transportation.

Estimated Project Cost: Will be determined by the remainder of the budget after the rest of the projects are funded and by the recommendations from CDOT.

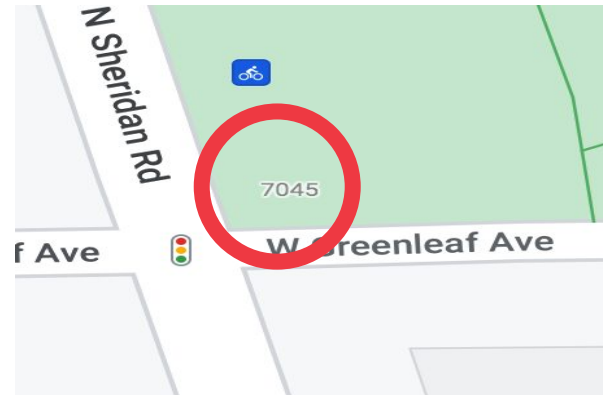

Parks & Environment/Arts and Culture Committee

Replacement of Wooden Planter Box at Loyola Park

Project Description: At the corner of Greenleaf and Sheridan (red circle on the map to the right) outside of the Loyola Park Fieldhouse, there is a large wooden raised planting bed. The wood beams have rotted and are in poor condition and should be replaced with sturdier materials to maintain the plant preservation. See next slide for closer image.

Estimated Project Cost: Awaiting estimate from Park District based on their recommended design.
